**A GREAT CHOICE  
FOR THE UPCOMING SHOW SEASON!**

"A high end Sunglo meal feed with rigid manufacturing specifications combined with local manufacturing make this a proven economical choice with results".

[www.sunglofeeds.com](http://www.sunglofeeds.com)

Sunglo is partnering with a selected group of regional feed manufacturers in order to provide Sunglo nutrition to customers with the benefits of local commodities and lower manufacturing and transportation costs"

## G-Line Show Feeds:

- Are made using exacting Sunglo Formulations
- Are manufactured locally at approved mills in meal form
- Utilize locally sourced grains and protein
- Minimize overhead and transportation costs
- Packaged in Sunglo bag
- Backed by Sunglo Technical and Field Support
- Are eligible for Sunglo Awards Program

## SHOW SECTOR **1** Complete

- Sector 1 transitions pigs from pellets to ground feed earlier with high quality results when it comes to consumption and development.
- Designed for pigs in the 18 to 40 lb weight range
- Formulated with multiple milk, protein and amino acid sources to provide highly digestible nutrients needed by young pigs with a very immature digestive system
- Ingredient combination promotes appetite and improved daily feed consumption

## SHOW SECTOR **2** Complete

- A ration designed for consumption which correlates to more rib and muscle shape while saving money in a large consumption phase.
- Works great as a receiver feed for bringing in show pigs to the youth's farm getting them the proper nutrition and the best drug combination available.
- Designed for pigs in the 30 to 70 lb weight range
- Contains high levels of lactose (milk sugars) and amino acids to support enhanced feed intake, early muscle development and bloom

A GREAT CHOICE FOR THE UPCOMING SHOW SEASON!

"A high end Sunglo meal feed with rigid manufacturing specifications combined with local manufacturing make this a proven economical choice with results".

## **20** G Meal Feed *Protein 20% Lysine 1.25% Fat 5.0%*

- A meal feed designed for younger pigs to encourage muscle development and early growth.
- This is a "complete" feed, requiring no additives or supplements.
- A normal feeding plan for this product would be to self-feed from 65 lb until 125 lb. Then evaluate for desired growth rate and condition and either continue self-feeding this product up to 200 lbs, or begin hand-feeding this diet at a reduced rate.
- Medicated with 100 grams/ton of Tylan®, which gives good control of dysentery and ileitis and has no withdrawal.

## **18** G Meal Feed *Protein 18% Lysine 1.11% Fat 5.0%*

- A meal feed designed for 100 lb and greater body weight pigs to encourage growth in rib and body.
- Designed to add condition to pigs that are harder in their appearance.
- Medicated with 100 grams/ton of Tylan®.

## **16** G Meal Feed *Protein 16% Lysine 0.95% Fat 5.0%*

- A meal feed designed for 125 lb and greater body weight pigs to encourage growth in rib and body.
- Designed to let pigs continue development and allow for more consumption which promotes more body and rib shape.
- A very popular feed with our feeders to meet the current day show ring trends.
- Medicated with 100 grams/ton of Tylan®.

## **14** G Meal Feed *Protein 14% Lysine 0.85% Fat 5.0%*

- A meal feed designed for 125 lb and greater body weight pigs to encourage growth in rib and body.
- Utilize on pigs that need to reduce or soften muscle mass and add more body allowing pig to be more natural in its appearance.
- Medicated with 100 grams/ton of Tylan®.

## Show Gilt **G** Meal Feed *Protein 17% Lysine 1.0% Fat 6.0%*

- A meal feed designed for 100 lb and greater body weight breeding gilts to develop correctly in structure, capacity and growth.
- Designed to enhance appetite and consumption with extra nutrients to build dimension and volume.
- A must use feed to maximize the genetic potential of your breeding gilt.
- Medicated with 100 grams/ton of Tylan®.
- Features the new "Sunglo Bloom & Fiber" Technology.

Various medication options are available upon request
