

FINAL CONTROL

Sunglo Final Control is a unique top dress product designed for the final conditioning phase for show pigs, sheep and goats.

Supplies critical nutrients needed to maintain shape, freshness and bloom during a holding program

- Amino Acids
- Vitamins
- Minerals

High amino acid concentrate in a relatively low crude protein supplement (28% C.P.)

- Supplies amino acids for muscle maintenance, without forcing the animal to excrete excess nitrogen in urine. (Less stress on kidneys and risk of kidney damage)

Unique amino acid ratios found by research to provide best results for animals that are in maintenance mode.

Feeding Directions:

- Feed 1 lb per head per day of Final Control when restricting the total feed intake to 4 lb or less per day.
- Restricted feeding programs are not recommended before pigs reach 200 lbs body weight.
- Lambs & Goats - 1/2 lb per day - .4 oz. per 100 lbs

Typical Ration to Achieve Approximately
1 lb - Daily Gain

Sunglo Final Control, lb	1 lb
Sunglo Show Feed, lb	3 lbs
Total Feed/Daily Intake, lb	4 lbs
